CERMENATE: Real estate transaction. The project, drafted by the Franco Pè Architecture Studio, involves the construction of 15 residential units in a single building. The units will span three floors above ground, plus an attic, for residential use, and a basement level for garages, cellars, and utility rooms. Depending on the type, each unit will have a private garden, loggias, and terraces. Currently, there are buildings on the site requiring demolition. Possibility of a property exchange.
